VTE Advisor for Providers

Patient Population that are Excluded from VTE:

- Outpatient encounters.
- Patients < 18yrs of age.
- Emergency Room encounter.
- Inpatient Psychiatric encounter.
- Patient in the OR or Endoscopy Suite.

Note: VTE Risk Alert fires after First 12 hours of Admission

VTE Advisor Alert after 12 hours

- VTE Advisor is embedded within Powerplans.
- If the VTE Advisor is not complete within 12 hours, a reminder alert will display.
- The provider has 2 options:
    1. Select the VTE Advisor button to complete the assessment.
    2. Delay the VTE Advisor screening for 12 hours.

NOTE: The ability to place orders will be electronically prevented if the VTE Advisor is not completed within 12 hours of admission.

VTE Advisor from Orders

1. Access Powerchart and open a Patient's chart **.**
2. Navigate to the Orders Tab and select the Add Order Icon
