# Getting Started with Dragon DMO PowerMic

- Connect your MIC to the appropriate USB port on your computer
- To access PowerChart using DMO, click the **'DMO PowerChart'** link on SSO
- If the computer does not have SSO, click on the desktop **DMO PowerChart Mic** icon on Citrix

- Do NOT click on the PowerChart icon – DMO will automatically open PowerChart
- The **Dragon Medical One Login** box will appear on your screen.

- **Log In:** enter your PowerChart user name
- **Microphone:** select ‘**Microphone (PowerMIC II-NS)**’ if it doesn’t automatically display
- **Specialty:** recommended to select the ‘**General Medicine**’ as the preferred specialty. All specialty vocabularies are based on this book so you no longer have to select your specialty
- The **DragonBar** will appear on the left hand side of the screen
- Press and hold the microphone button to begin speaking
